Gertrude Bell: The Arabian Diaries, 1913-1914: O'Brien ...

This book left me in complete awe of Gertrude Bell, who no doubt is spinning in her grave at what has happened to the Iraq she worked so hard to establish. An extraordinarily tough, charismatic woman; ahead of her time, who never felt she had to become a man in a man's world to triumph.

Gertrude Bell: The Arabian Diaries, 1913-1914 eBook: O'Brien, Rosemary: Amazon.com.au: Kindle Store

The Englishwoman Gertrude Bell lived an extraordinary life. Her adventures are the stuff of novels: she rode with bandits; braved desert shamals; was captured by Bedouins; and sojourned in a harem. Called the most powerful woman in the British Empire, she counseled kings and prime ministers. Bell's colleagues included Lloyd George and Winston Churchill, who in 1921 invited Bell—the only woman whose advice was sought—to the Cairo Conference to “determine the future of Mesopotamia.” Bell numbered among her closest friends T.E. Lawrence, St. John Philby, and Arabian sheiks. In this volume of three of her notebooks, Rosemary O'Brien preserves Bell's elegant, vibrant prose, and presents Bell as a brilliant tactician fearlessly confronting her own vulnerability. The fundamental themes of her life—reckless behavior; a divided self which combined brilliance of intellect with a passionate nature; a sense of history; and the fatal gift of falling in love with a married man—are all here in remarkable detail. Her journey to northern Arabia in 1914 earned Bell professional recognition from the Royal Geographical Society, and solidified her reputation as a canny political analyst of Middle Eastern affairs. In addition to Bell's own photographs, O'Brien has provided us an unprecedented first access to excerpts of the Bell/Richard Doughty-Wyllie love letters, the married British army officer with whom she was in love and for whom her diaries were written.

A portrait in her own words of the female Lawrence of Arabia, the subject of the PBS documentary Letters from Baghdad, voiced by Tilda Swinton, and the major motion picture Queen of the Desert, starring Nicole Kidman, James Franco, Damian Lewis, and Robert Pattinson and directed by Werner Herzog Gertrude Bell was leaning in 100 years before Sheryl Sandberg. One of the great woman adventurers of the twentieth century, she turned her back on Victorian society to study at Oxford and travel the world, and became the chief architect of British policy in the Middle East after World War I. Mountaineer, archaeologist, Arabist, writer, poet, linguist, and spy, she dedicated her life to championing the Arab cause and was instrumental in drawing the borders that define today's Middle East. As she wrote in one of her letters, “It's a bore being a woman when you are in Arabia.” Forthright and spirited, opinionated and playful, and deeply instructive about the Arab world, this volume brings together Bell's letters, military dispatches, diary entries, and travel writings to offer an intimate look at a woman who shaped nations. This “richly textured biography” (Chicago Tribune) inspired the mesmerizing documentary, Letters from Baghdad, soon to air on public television. Here is the story of Gertrude Bell,

who explored, mapped, and excavated the Arab world throughout the early twentieth century. Recruited by British intelligence during World War I, she played a crucial role in obtaining the loyalty of Arab leaders, and her connections and information provided the brains to match T. E. Lawrence's brawn. After the war, she played a major role in creating the modern Middle East and was, at the time, considered the most powerful woman in the British Empire. In this masterful biography, Janet Wallach shows us the woman behind these achievements—a woman whose passion and defiant independence were at odds with the confined and custom-bound England she left behind. Too long eclipsed by Lawrence, Gertrude Bell emerges at last in her own right as a vital player on the stage of modern history, and as a woman whose life was both a heartbreaking story and a grand adventure.

"Here in the dust and the sunshine is an epitome of the living East, and standing unnoticed in a doorway, you will admit that you have not travelled in vain. But as the procession of people files past you, you will realize what a gulf lies between you. The East looks to itself; it knows nothing of the greater world of which you are a citizen, asks nothing of you and your civilization." This brilliant, vivid and impressionistic series of sketches, formed during her 1892 stay in Persia, is Gertrude Bell's first published work. Infused with a distinctive orientalism, "Persian Pictures" is an evocative, virtuosic meditation, moving sinuously between Persia's heroic complex, mythical past and present decline; the public face of Tehran and the otherworldly "secret, mysterious life of the East;" the lives of its women; its enclosed, quasi-medieval gardens; from the bustling cities to the lonely wastelands of Khorasan. Bell's documentation of Muharram - the month of mourning for Imam Hussein, the grandson of the Prophet Mohammed - and Ramadan, display a mind finely attuned to the differences and similarities between Islam and Christianity, East and West. "Persian Pictures" is both travelog and meditation, an elegaic and beautifully observed account of a spellbinding land. Scholar, historian, linguist, archaeologist, photographer, secret service agent and traveller, Gertrude Bell (1868-1926) was a hugely significant figure. Her early travels were made in Europe and Persia; she made two round-the-world trips (1897-8 and 1902-3), while her climbing exploits in the Alps from 1899-1904 earned her renown as a mountaineer. Like other British 'orientalists' of the early 20th century, she explored the Ottoman Empire during and after World War I and was hugely instrumental in the post-war reconfiguration of the Arab states in the Middle East. She was a prime mover in creating the new state of Iraq and establishing a constitutional monarchy there with a parliament, civil service and legal system; as Honorary Director of Antiquities in Iraq, she established the Iraq Museum in Baghdad.

A grand historical novel about Gertrude Bell, one of the most influential women of the twentieth century. She was the most celebrated adventurer of her day, the brains behind Lawrence of Arabia, an adviser to kings and desert sheikhs, and the British government's secret weapon in WWI in the campaign against the Turks. A brilliant academic, mountaineer, explorer, linguist, politician, and towering literary figure, Gertrude Bell is the most significant unsung heroine of the twentieth century. Alan Gold's meticulously researched novel accurately opens history's pages on a peerless woman who broke all molds on how Victorian women were supposed to behave—socially, intellectually, and physically. Guiding the events of the day in open, sanctioned diplomacy and adventure all across the Middle East, her influence on the men at the vanguard of history, and her unparalleled skill in sculpting the pathways and influences of the English, French, and Arab allies on the region, all lead to perhaps her greatest achievement: single-handedly creating today's Iraq. Told as a biographical narrative of history, Alan Gold reveals that, more than any other single figure, it was this extraordinary woman who most determinedly fashioned the Arab world as we know it today.

One of the Best Books of the Year: The Christian Science Monitor NPR The Seattle Times St. Louis Post-Dispatch Chicago Tribune A New York Times Notable Book Finalist for the National Book Critics Circle Award in Biography The Arab Revolt against the Turks in World War I was, in the words of T. E. Lawrence, "a sideshow of a sideshow." As a result, the conflict was shaped to a remarkable degree by a small handful of adventurers and low-level officers far removed from the corridors of power. At the center of it all was Lawrence himself. In early 1914 he was an archaeologist excavating ruins in Syria; by 1917 he was riding into legend at the head of an Arab army as he fought a rearguard action against his own government and its imperial ambitions. Based on four years of intensive primary document research, Lawrence in Arabia definitively overturns received wisdom on how the modern Middle East was formed.

This is about my responsibility. Doing what is right. Being where I'm needed. I've started a job and I must finish it. I owe it to the people of Iraq. In 1926, the nation of Iraq is in its infancy, and British archaeologist Gertrude Bell is founding a museum in Baghdad. In 2006, Ghaliya Hussein is attempting to reopen the museum after looting during the war. Decades apart, these two women share the same goals: to create a fresh sense of unity and nationhood, to make the world anew through the museum and its treasures. But in such unstable times, questions remain. Who is the museum for? Whose culture are we preserving? And why does it matter when people are dying? A story of treasured history, desperate choices and the remarkable Gertrude Bell. This edition of Hannah Khalil's epic new play was published to coincide with the world premiere at the RSC's The Other Place in 2019.
